Excels in a professional work environment and ready to adapt to the constantly changing world of coding. Strong background in human relations and organization.

PROJECTS

CounterList

March 2023

[Link: CounterList](#)

- Front-End Project I created with one teammate for users to quickly and easily access hero/champion information and counters for their respective video games.

- Built with: HTML, CSS, JavaScript, Bootstrap, JSON, API

HelloWorld

June 2023

[Link: HelloWorld](#)

- Full Stack Project I created with one teammate and is a full stack React video game that combines visual novel storytelling with multiple minigames.

- Built With: React.js, Redux, CSS, HTML, Sequelize

Poke-Squad

May 2023

[Link: Poke-Squad](#)

- React Application that I created by myself that is designed to help people create, manage and store their teams effectively. It utilizes the PokeAPI.

- Built with: React.js, Redux, API, CSS HTML, Sequelize

SoundProof

[Link: SoundProof](#)

April 2023

- Full Stack Project I created with one teammate for users to manipulate stored data into a music sharing website where people can talk about music to other people in multiple ways such as with blog posts and chatrooms.

- Built with: HTML, CSS, JavaScript, Bootstrap, Express, MongoDB
